I have skills in c++ programming, Java programming, HTML/CSS/PHP/JAVASCRIPT web programming, MySQL database programming, among many more computer skills related to Windows based computers and some experience with Unix based computers. Some of my skills include:

Layout and design	Web application design	Object-oriented design	HTML/CSS/
javascript/PHP	C++	Java	

Other skills:

Always able to help people solve many problems with their computers. Eg. Virus removal, software installation, OS updates, problem troubleshooting, etc.

Positions held:

**Volunteer techie.** Jan 2005 to Current at **New Covenant UMC** — 900 Bellerive Blvd. Saint Louis, MO

I have recently been appointed to take over the running and designing of our church website.

I help set up and/or run much of the technical equipment for the church including: computer and projector, powerpoint presentations, sound system setup and operation. I also help teach the youth how to run the computer, projector, and sound system when they require assistance. I help set up electronics for other events that require projector and powerpoint or projector and TV/DVD devices. I have also helped set up and troubleshoot problems with the wireless network, and assist people when they need access to the internet.
